## MISSION:

Our aim is to gain the confidence of our new business partners on the basis of honesty, devotion and mutual understanding. We have proven us to be the most reliable indenters to our valued business individuals and we believe that our new entrepreneur would give us the same opportunity to avail our best services.

## VISION:

Our vision is to make our mark in the market while consolidating our presence in areas of our present operations; we shall continue to seek new opportunities where we can leverage our skills.

**TED** “Bridging Businesses” was established in 2012, and since then it has been one of the fastest growing indenting companies in Pakistan covering all aspects of modern quality and performing highest level of service. The main objective of our high quality service is not just to earn business, It is to satisfy the customers to the very end of the business processes, Our Value added services re up to the modern standards, which enables us to reach the highest market segment in just four years of our operations. Our success achiever objectives include the following:

- High customer satisfaction from starting point to the ending point of the business operation / contracts.
- Consistent quality maintenance and upgrading our services standards to meet the raising demands of our customers.
- Implementing new technologist / strategies to decrease the lead time required to ship the new orders.
- Working with the market giants and easing their logistics and procurement procedures and keeping them satisfied with our services quality.
- Retaining customer queries and providing them with ultimate procurement solutions and relatively cheaper shipments.

**TED** is Modern Indenting and sourcing company offering its services to Pharmaceutical, food, feed and other allied Industries for procuring raw materials, packaging & others items from world renowned and trusted Manufacturer with international standing. We believe in providing excellent services to local customers and enable and facilitate our foreign Principals and suppliers to sell and market their products in Pakistan as they sell in their own country. We protect intresrs of both parties equally and manually without any discrimination. Also our approach towards indenting is not just for one time transaction, instead we believe into building long term relationship with local customers and international supplier on the basis of trust, loyalty and matual interest.

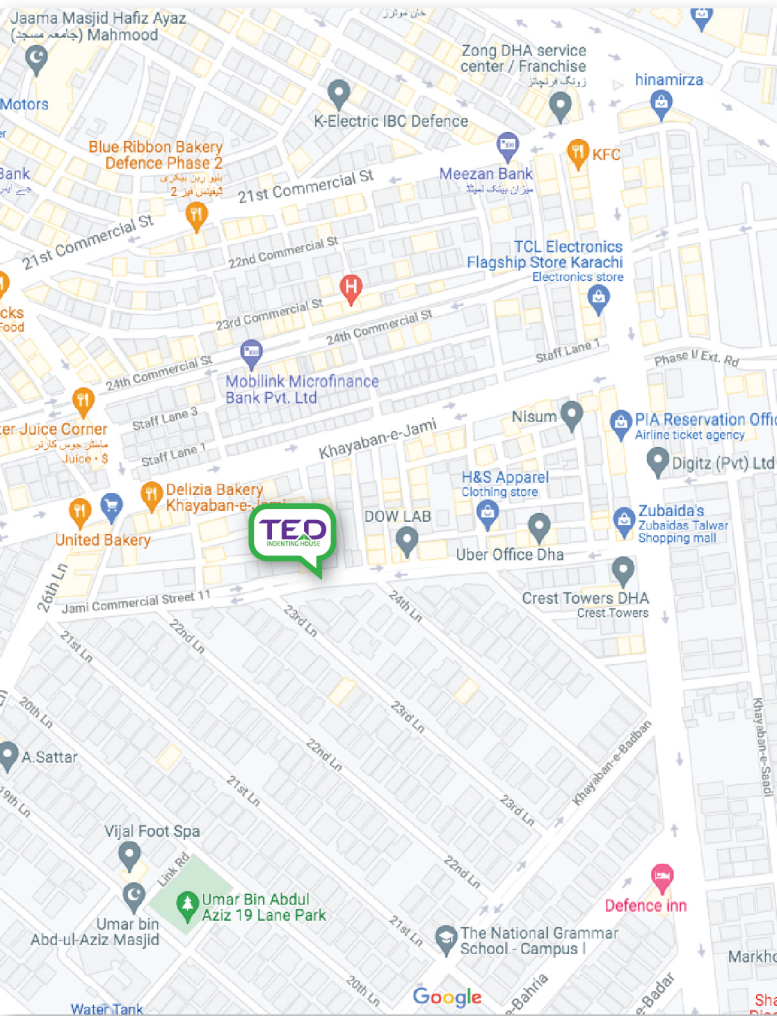

**TED** team consists of professional's entrepreneur and has long association with Pakistan's renowned Pharmaceuticals and foods and FMGC manufacturing Industries, and has extensive experience in supply chain management, Indenting & sourcing in international procurement and imports of Pharmaceuticals, foods and feed ingredients along with variety of other chemicals used in almost all industries in Pakistan.

**TED** constantly seeks opportunities to add value to its clients business, We provide a unique platform to our overseas principals for marketing their products effectively in Pakistan.

We look for opportunities of mutual shared benefits, whilst offering the highest possible services levels and flexibility to ensure that both parties enjoy a successful and profitable relationship. TED stands for quality services, constantly enriched with our zeal to become one of the leading international trading and indenting company in Pakistan.

TED is currently representing world renowned manufacturers from Germany, Belgium, Malaysia, India, China, Thailand, Singapore, Gulf countries, Australia and USA for marketing their products in Pakistan. The company has a strong customers profile for the products being marketed on behalf of its International Principals.
